

ABDUL BASIT

Full-Stack Web Developer

Lahore, Pakistan | noortajbasit982@gmail.com | 0333-4461278 | github.com/ABASIT982

PROFESSIONAL SUMMARY

Full-stack web developer and Computer Science graduate with hands-on experience building responsive, production-ready web applications using React.js, Next.js, Node.js, TypeScript, and Supabase. Combines internship experience at a professional software house with one year of freelance development for international clients on Fiverr. Skilled in front-end development, REST API integration, database design, authentication, and cloud deployment (AWS, Vercel). Known for delivering clean, maintainable code and meeting client deadlines.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, shadcn/ui, responsive design

Backend: Node.js, Next.js API Routes, REST APIs, server-side logic, authentication

Databases: Supabase (PostgreSQL), MongoDB, SQL, database design

Cloud & DevOps: AWS (S3, Cognito, Bedrock), Vercel, serverless deployment, Git, GitHub

Tools: VS Code, Figma, npm, yarn, Postman

Core Skills: Problem solving, client communication, agile collaboration, code review, debugging

PROFESSIONAL EXPERIENCE

Freelance Web Developer | Fiverr (Remote)

2025 – Present

React.js, Next.js, Node.js, Supabase, Tailwind CSS

- Delivered custom web development projects for international clients, building responsive front-end interfaces and integrating backend APIs
- Gathered client requirements, proposed technical solutions, and delivered completed projects within agreed deadlines
- Built reusable React components and implemented mobile-responsive layouts across multiple client projects
- Maintained clear, consistent client communication throughout project lifecycles, resulting in repeat engagements

Web Development Intern | Firnas Tech (Pvt) Ltd

2024 – 2025

React.js, Next.js, JavaScript, REST APIs

- Contributed to client-facing web development projects alongside a professional development team
- Developed and styled responsive user interface components using React.js and modern CSS frameworks
- Integrated REST APIs and handled data fetching, state management, and error handling on the front end
- Participated in code reviews, debugging, and testing to improve application quality and performance
- Applied version control workflows using Git and GitHub in a collaborative team environment

PROJECTS

University Scholarship Portal | Final Year Project

2025 – 2026

Next.js, React.js, Node.js, Supabase (PostgreSQL, Auth)

- Built a full-stack scholarship management portal serving graduate and undergraduate students, with detailed listings and eligibility criteria
- Implemented a recommendation engine matching students to relevant scholarships based on academic profile
- Designed the database schema and authentication flow on Supabase, with separate student and administrative interfaces

DocChat AI | AI-Powered Document Q&A Platform

Personal Project

Next.js 16, TypeScript, Tailwind CSS, shadcn/ui, AWS Cognito, AWS S3, Amazon Bedrock

- Developed a serverless web application enabling users to upload PDF documents and query them using AI, returning answers with source citations
- Implemented secure authentication with AWS Cognito and document storage with AWS S3
- Integrated Amazon Bedrock (Claude, Nova) for AI-driven document question-answering

Online Civil Documentation Portal (NADRA-Style)

Academic Project

React.js, Node.js, Supabase

- Built a web portal for online application of civil documents (CNIC, FRC, CRC) with submission and status-tracking workflows

EDUCATION

Bachelor of Science in Computer Science

2022 – 2026

COMSATS University Islamabad, Abbottabad Campus

- Relevant coursework: Data Structures, Object-Oriented Programming, Database Systems, Software Engineering, Web Technologies
